Yamaha F30HP Four Stroke Mid-Range Outboard for Sale

The Yamaha F30 Outboard Motor is the ideal choice for boaters who want dependable performance, excellent fuel efficiency, and smooth operation in a compact 30HP package. Built for versatility, it's perfect for cruising, trolling, and light offshore use. Powered by a 747cc 3-cylinder engine, the F30 delivers strong, consistent performance with Yamaha's renowned reliability—giving you confidence every time you head out on the water.

Yamaha F30 Performance & Features

Designed with advanced technology for smooth, efficient boating:

- Multi-Point Electronic Fuel Injection (EFI) for reliable starting in all conditions
- Excellent fuel efficiency for longer days on the water
- Quiet, smooth operation with reduced vibration and noise
- Strong, dependable midrange power for versatile use
- Clean, efficient combustion for lower emissions

Versatile Control Options

The Yamaha F30 is designed to suit different boating styles:

- Forward control with digital gauge compatibility
- Tiller handle option for hands-on control and manoeuvrability

Multi-Function Tiller Handle (optional) includes:

- Trim & tilt control
- Integrated throttle and shift
- Start-in-gear protection
- Warning alert system
