# Yamaha F50HP Four Stroke Mid-Range Outboard for Sale

he **Yamaha F50 Outboard Motor** is built for unforgettable family days on the water—combining **lightweight design, smooth handling, and dependable 50HP performance** in one refined package. Whether you're cruising rivers, exploring inshore waters, or enjoying a full day of boating, the F50 delivers confidence every time you launch.

Powered by a **996cc four-cylinder engine**, it offers a perfect balance of power and control, giving you smooth acceleration, excellent stability, and the reliability Yamaha is known for.

As the only Japanese-manufactured engine in its 50HP four-cylinder class, the F50 stands out for its **durability, refinement, and premium build quality**.

## Yamaha F50 Performance & Features

Designed for smooth, efficient boating with proven Yamaha engineering:

- 996cc four-cylinder marine engine for balanced performance
- Excellent power-to-weight ratio for responsive handling
- **Multi-Point Electronic Fuel Injection (EFI)** for efficiency and precision
- **Electronic Control Module (ECM)** for optimised engine performance
- Smooth, low-vibration operation for comfort on the water
- Strong, consistent torque and throttle response
- Excellent fuel efficiency for longer family trips
- Quiet operation for a more enjoyable boating experience
-

## Built for Real Family Boating

The Yamaha F50 is designed to make every trip easier and more enjoyable:

- Smooth cruising performance for inland and offshore use
- Confident handling for fishing, tubing, and leisure boating
- Reliable cold starts and consistent operation
- Lightweight design for improved boat balance

With its low-profile cowling and modern styling, the F50 looks as good as it performs.
