Yamaha F60HP Four Stroke Mid-Range Outboards for Sale

The **Yamaha F60 Outboard Motor** is the perfect choice for inshore anglers who want a balance of lightweight efficiency, smooth power delivery, and reliable performance. Inspired by the innovative F70 design, the F60 delivers impressive refinement in a compact and fuel-efficient package. Built for versatility, it's ideal for fishing platforms, aluminium boats, and light recreational craft where responsiveness and economy matter most.

Yamaha F60 Performance & Features

At the heart of the F60 is a **996cc, four-cylinder marine engine**, engineered for smoothness, efficiency, and dependable power:

- 996cc lightweight four-cylinder design
- Exceptional power-to-weight ratio
- Strong, responsive torque for inshore performance
- Smooth and refined four-stroke operation
- Low vibration for comfortable all-day boating

Advanced Yamaha Engineering

The F60 is designed with proven Yamaha technology to deliver reliability and efficiency on the water:

- Multi-Point Fuel Injection (EFI) for precise fuel delivery
- Electronic Control Module (ECM) for optimised engine performance
- Excellent fuel economy and reduced running costs
- Low emissions and quiet operation
- 16-amp high-output alternator for dependable charging power
-

Precision Trolling Control (Optional)

For serious anglers, the F60 offers Variable Trolling RPM Switch (optional):

- Fine-tune engine idle speed with precision
- Maintain ideal lure presentation for different fish species
- Improve control during slow-speed fishing
