Yamaha F70HP Four Stroke Mid-Range Outboards for Sale

The **Yamaha F70 Outboard Motor** set a new benchmark when it launched, completely changing expectations in the midrange outboard category. Known for its exceptional balance of power, efficiency, and lightweight design, the F70 is a standout choice for serious boaters.

At its core is Yamaha's advanced four-cylinder, 16-valve SOHC engine, engineered for smooth, responsive performance. With four valves per cylinder, the engine delivers improved airflow and combustion efficiency, resulting in stronger torque, better fuel economy, and reduced weight. Perfectly suited to a wide range of mid-sized fishing boats and pleasure craft, the F70 delivers versatility without compromise.

Yamaha F70 Performance & Technology

Built for efficiency, reliability, and smooth operation:

- 1.0L class-leading lightweight four-cylinder design
- 16-valve SOHC configuration for improved breathing and efficiency
- Four valves per cylinder for enhanced volumetric efficiency
- **Electronic Fuel Injection (EFI)** for precise fuel delivery
- **Electronic Control Module (ECM)** for optimal engine management
- Strong torque band with responsive acceleration
- Best-in-class fuel economy
- Smooth, quiet, low-emission operation
- 16-amp high-output alternator for reliable charging power

Lightweight, Versatile & Built for Boating Freedom

The Yamaha F70 delivers impressive performance in a compact package, making it ideal for aluminium fishing boats and recreational craft where weight and efficiency matter.

- Exceptional power-to-weight ratio
- Smooth, comfortable ride quality
- Low vibration and reduced noise levels
- Designed for long days on the water
