# Yamaha F75HP Four Stroke Mid-Range Outboards for Sale

The **Yamaha F75 Outboard Motor** is the ideal midrange solution for boaters who want the perfect balance of **power, fuel efficiency, and lightweight design**. Built for Australian conditions, it delivers dependable performance whether you're fishing offshore, cruising with family, or towing skiers.

Designed for versatility, the F75 suits a wide range of hulls including aluminium fishing boats, deck boats, and family all-rounders—offering smooth, responsive handling every time you launch.

## Yamaha F75 Performance & Features

Powered by Yamaha's proven engineering, the F75 is built for efficiency and strength:

- Large **1.8L displacement** for strong torque and fast acceleration
- 16-valve SOHC (Single Overhead Camshaft) design
- Four valves per cylinder for improved airflow and combustion efficiency
- Lightweight, compact powerhead for better boat balance
- Ideal for mid-sized and multi-purpose boating applications
- **Lean Burn Technology** for smarter fuel delivery and reduced fuel use
- Lower running costs for everyday boating and long trips
- Seamless compatibility with GPS, fish finders, and multi-function displays
- Available in Yamaha Grey and Pearlescent White finishes

## Model Options

- **F75LB** – Electric start, trim & tilt system, long shaft (162kg), forward control with T&T
- **F75XB** – Electric start, trim & tilt system, extra-long shaft (166kg), forward control with T&T

## Built for Australian Boaters

The Yamaha F75 is engineered for reliability in real-world conditions—delivering smooth power, quiet operation, and outstanding fuel efficiency across a wide range of boating activities.
