Yamaha F115HP Four Stroke Offshore Outboards for Sale

Yamaha F115 Four-Stroke Outboard – Performance, Efficiency & Reliability:
The Yamaha F115 four-stroke outboard is a proven leader in the 115HP class, delivering exceptional performance, fuel efficiency, and reliability for Australian boating conditions. A popular choice for fishing boats, family runabouts, and light commercial use, the F115 continues to be one of Yamaha's most trusted and best-selling outboards.

The latest Yamaha F115 features increased engine capacity and a 15kg weight reduction, improving power-to-weight performance for stronger acceleration, better mid-range torque, and responsive handling while maintaining Yamaha's signature smooth, quiet, and fuel-efficient operation.

Built with advanced engineering, the F115 includes a 16-valve DOHC design, electronic fuel injection (EFI), and a large bore throttle body for improved airflow, reliable starting, and consistent performance across all conditions.

For enhanced control and monitoring, the Yamaha Command Link CL5 touchscreen display provides real-time engine data in a compact, modern interface. Designed for Yamaha EFI outboards, it can monitor up to four engines while keeping the helm clean and uncluttered.

Key Features:

- Proven 115HP Yamaha four-stroke performance
- Improved power-to-weight ratio with reduced weight
- 16-valve DOHC EFI technology for efficiency and reliability
- Strong acceleration and mid-range torque
- Smooth, quiet, fuel-efficient operation
- Compatible with Yamaha Command Link CL5 touchscreen

Ideal for fishing boats, family boats, and light commercial use

Why Choose the Yamaha F115?

- Class-leading power-to-weight performance
- Improved acceleration and mid-range torque
- Exceptional fuel efficiency and smooth operation
- Advanced 16-valve DOHC EFI technology
- Lightweight design for better boat handling
- Available in multiple shaft lengths and colour options
- Compatible with Yamaha Command Link CL5 touchscreen

BROCHURE

Yamaha F115 Specifications
Engine Type: 4-Stroke, 16-Valve DOHC Inline 4
Displacement: 1,832cc
Bore x Stroke: 81.0 x 88.9mm
Max RPM Range: 5,300–6,300
Fuel System: EFI
Ignition: TCI
Lubrication: Wet Sump
Alternator: 12V – 35A with Rectifier Regulator
Gear Ratio: 2.15:1 (Counter-Rotating Prop Available)
Starting System: Electric Start
Control: Mechanical (Optional Multifunction Tiller)
Trim & Tilt: Power Trim & Tilt
Gauges: Optional Command Link
Transom Height: L: 516mm | X: 643mm
